Foreword

We are pleased to present the Shire of Laverton Plan for the Future: Strategic Community Plan and Corporate Business Plan. This Plan is part of our continued commitment to maintain our focus to ensure the Shire of Laverton will strive to work with the community to fulfil their needs and support their aspirations while acting with fairness and demonstrating leadership.

This Plan shares our vision and objectives, aligned to the community's expressed visions and aspirations for the future. Outlining how we will, over the next decade, work towards a brighter future for the Shire of Laverton community.

This could not have been produced without the input of the local community. We are grateful to the community for their response and especially to those who took the time to provide input into the strategic community planning process. Your responses gave us valuable insight into your vision for the future of the Shire of Laverton.

We believe we have captured the community's aspirations and have reflected these in our vision and desired outcomes. As a local government we will work in partnership with the community, and other key stakeholders, to deliver these outcomes using the strategies we have detailed in this Plan.

Over recent years, the Shire of Laverton has undertaken infrastructure developments which will be of ongoing benefit to our resident population, local business and visitors to Laverton. During the development of this Plan, we recognised our progress and identified the need to ensure the Shire has the resource capacity to maintain our infrastructure and continue current levels of services to the community.

Patrick Hill, President
Peter Naylor Chief Executive Officer
October 2020.

Our Vision

The Shire of Laverton will strive to work with the community to fulfil their needs and support their aspirations while acting with fairness and demonstrating leadership.

Integrated Planning and Reporting

All Western Australian local governments are required to prepare a Plan for the Future for their district, comprising of two key strategic documents, a Strategic Community Plan and Corporate Business Plan. Local governments are required to have regard for the Plan for the Future when forming their annual budget. However, there is an exception for this requirement during the COVID-19 pandemic under the emergency response order¹.

Plan for the Future

This Plan for the Future is the integrated approach to combining the Strategic Community Plan and Corporate Business Plan into one document, reflecting their strategic alignment and integration.

Strategic Community Planning Component

The Strategic Community Plan is Council's principal 10-year strategy and planning tool, guiding the remainder of the Shire's strategic planning. Community engagement underpins to the Strategic Community Plan.

An essential element of the development process is to enable community members and stakeholders to participate in shaping the future of the community, identifying issues and solutions.

This Plan outlines how the Shire will, over the long term, work towards a bright future for the community, as it seeks to achieve its vision inspired by the community's aspirations and objectives.

The Shire of Laverton intends to use the Strategic Community Plan in several ways, including:

- Guide Council's priority setting and decision making;
- Be a mechanism for the ongoing integration of local planning initiatives;
- Inform the decision making of other agencies and organisations, including community and State Government;
- Provide a rationale to pursue grants and other resources by demonstrating how specific projects align with the aspirations of our community, within the strategic direction of the Shire;
- Inform potential investors and developers of our community's key priorities, and the way we intend to grow and develop;

- Engage local businesses, community groups and residents in various ways to contribute to the Shire's future; and
- Provide a framework for monitoring progress against our vision.

Importantly, plans are only effective if adequate resources are dedicated to ensuring objectives can be delivered.

Corporate Business Planning Component

Achieving the community's vision and the Shire's strategic objectives requires development of actions to address each strategy contained within the Strategic Community Plan. Careful operational planning and prioritisation is required due to limited resources, The Corporate Business Planning is undertaken in conjunction with Long Term Financial and Asset Management Planning. The Corporate Business Plan puts the Strategic Community Plan into action via the Annual Budget.

A core component of Corporate Business Planning includes a 4-year service delivery program, aligned to the strategic direction identified during the Strategic Community Planning, and accompanied by financial projections.

Along with achieving the community aspirations and objectives, the Corporate Business Plan draws upon information from the following strategic documents.

¹ Western Australia Local Government Act 1995, Local Government (COVID-19 Response) Order 2020, SL 2020/57, Gazetted 8 May 2020

Integrated Planning and Reporting

Strategic Resource Plan

The Shire took a combined approach to asset management and long term financial planning processes to produce an overarching Strategic Resource Plan. A key objective of the Strategic Resource Plan is to highlight and define key long term strategies to maintain financial and asset services to the community over the long term.

Asset Management Planning Component

The Shire has developed an Asset Management Plan for major asset classes in accordance with Council’s Asset Management Policy. The Asset Management Plan forms a component of an overall Asset Management Strategy which addresses the Shire’s current processes and sets out the steps required to continuously improve the management of Shire controlled assets.

Capital renewal requirements are contained within the Asset Management Plan and have been planned for to the extent the financial and workforce resources are available to enable the renewals to occur.

Long Term Financial Planning Component

The Shire of Laverton is planning for a positive and sustainable future. The Shire seeks to maintain, and where possible, improve service levels into the future while maintaining a healthy financial position.

During the development of this Plan for the Future, the Long Term Financial Plan was considered to ensure integration, resulting in an update to the capital works program. A review of the Long Term Financial Plan is planned during 2020/21 where detailed results of capital works program updates will be prepared for future reporting and planning.

Workforce Plan

The Workforce Plan provides the workforce management and resource strategies necessary to deliver the objectives, outcomes and strategies of the Shire’s Strategic Community Plan.

Workforce issues have been considered during the development of this Plan for the Future and the financial impact of the Workforce Plan captured within the Long Term Financial Plan. A combination of workforce and financial constraints has influenced the prioritisation of actions within this Plan.

The Integrated Planning Structure

Review of the Plan for the Future

Strategic Community Planning Component

In accordance with statutory requirements, the Strategic Community Plan is reviewed and updated on a 4-year review cycle including community consultation, with a desktop review being undertaken every 2 years.

Corporate Business Planning Component

In accordance with statutory requirements, the Corporate Business Plan component of this Plan for the Future is reviewed and updated annually to assess the progress of projects and realign the Plan’s actions and priorities based on current information and available funding.

The major review of the Corporate Business Plan occurred following a major review of the Strategic Community Plan in 2020.

A minor review of the Corporate Business Plan occurred as required in April 2022.

About Laverton

The Shire of Laverton covers 183,198 square kilometres in the far northern goldfields of Western Australia. The town of Laverton is the centre of administration and community services in the Shire, with 4,442 km of unsealed road servicing the pastoral and mining communities.

Home to the Wongi people, collectively known as Wongutha or Wankatja people, the Laverton region has a rich cultural history. The first European explorers, including Sir John Forrest, began to traverse the region in the nineteenth century. Named in 1900 after Dr Charles Laver, a keen prospector who rode his bicycle from Coolgardie to the area, Laverton was a booming gold mining town with a reputation of being 'the wildest town in the west'. It developed as the centre for commercial (both mining and pastoral) and social activity in the area until the late 1950's, when the train-line closed and many of the mines followed, leading to a population decline.

However, in 1969 a huge nickel deposit was discovered in the Laverton area, prompting the famous Poseidon Nickel stock market boom. This deposit was developed by Western Mining Corporation (WMC) into the Windarra Nickel Project, which mined and processed nickel for over 20 years. During this period, the town site was completely redesigned by WMC.

Located on the western edge of the Great Victorian Desert, the Shire of Laverton is the western point of the Outback Way, leading travellers straight into Australia's red heart, through Warburton to Uluru, Alice Springs and on to Winton in Queensland.

The flora in the Shire is generally sparse, however there is a variety of different flora types in the area. Although most of the Shire is semi-arid, it supports a variety of native and feral fauna. The wildflower season attracts many visitors to the area each year.

The mining and processing of mineral resources remain the primary industry within the Shire, with major gold mines Granny Smith, Sunrise Dam, Regis Resources, Gruyere Joint Venture, Dacian Mt Morgans, and numerous junior miners. Nickel mining is also strong, with the Murrin Murrin mine site being Australia's largest nickel producer. The Mount Weld Rare Earths mine is said to be one of the world's richest rare earth deposits.

The community is serviced by ancillary medical services, a local school, community resource centre and a variety of recreation facilities. There is also a regular commercial air service and a regular weekly passenger bus service.

Approximately 1,150 people create the current resident community of the Shire, and the Shire is host to a large number of Fly in Fly out (FIFO) workers with an estimated FIFO workforce in excess of 3,000.

The chart below reflects the percentage of the estimated resident population within each age grouping for the Shire of Laverton and Western Australia on the night of the 2016 census².

In comparison to the Western Australia demographic, the Shire has a lower proportion of younger residents in the 0-14 and over 65 age ranges. The number of people aged from 15 - 64 years is higher than the State average, mainly due to the high level of mining activity in the region and associated employment.

Our Community's Voice

As part of the ongoing development and review of the Strategic Community Planning, extensive community consultation was undertaken in 2012, 2016 and most recently in 2020. The results of these engagements were taken into consideration during the major review in August 2020 and subsequent development of this Plan for the Future: Strategic Community Plan and Corporate Business Plan.

This review process included a key focus on seeking the community's aspirations, vision and objectives for the future and feedback in relation to services and facilities provided by the Shire of Laverton.

Promotion and Awareness:

The engagement process commenced in March 2020 however, due to the COVID-19 pandemic, the engagement was postponed and reactivated in August 2020 with extensive promotion and advertising of this major review and request for community input, as listed below, to the district of the Shire of Laverton.

- Shire of Laverton website since 11 March 2020; second notice listed 5 August 2020;
- Community noticeboards since 11 March 2020; second notice listed 5 August 2020;
- Sturt Pea community newsletter;
- Laverton Noticeboard Facebook page 10 August– 1,000 follows;
- Shire Administration Office noticeboard; and
- Mail out to all residents – 11 August 2020.

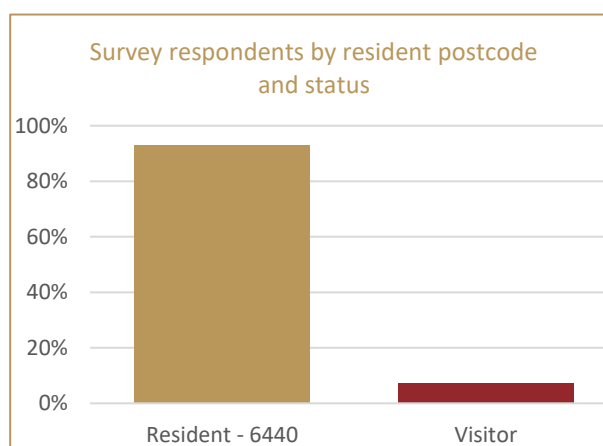

A survey was open to all community and stakeholders from 11 March 2020 to 25 August 2020. Two community workshops were open for all to attend on 24th and 25th August 2020 at the Shire office.

The survey was also made available at the following locations:

- Shire Administration Office;
- CRC;
- Local store;
- Deli; and
- Great Beyond Visitors Centre.

Response:

- 14 Individual survey responses received
- 11 community workshop participants

Our Community's Voice

Survey respondents rated their perspective of the importance and their level of satisfaction with current and anticipated Shire services, facilities and support. Based on the survey results, the relative importance and satisfaction of various Shire services, community facilities and infrastructure were determined.

Services and facilities with a higher than average importance to the community are reflected in the top half of the chart below. Services and facilities the community is most satisfied with are reflected in the right half of the chart below.

Our Aspirations and Values

Our community identified the following aspirations and values:

- An oasis for locals and visitors;
- Oasis in the desert;
- A harmonious and sustainable community;
- A healthy and vibrant place to live, work and visit;
- A place we are proud of;
- A memorable destination; and
- A thriving and attractive hub

The feedback received during this engagement process, continues to align with the engagement responses received during previous iterations of the Strategic Community Plan.

The local community again expressed their value of the wide open spaces, fresh air and remote location. The friendly and welcoming community spirit is highly regarded along with the history of the area.

To retain these important traits, unity and building inclusive culture is essential. Anti- social behaviour and apathy were highlighted as ongoing concerns which must be proactively addressed.

When asked about a vision for the future, the most common responses included a desire for Laverton to develop into a vibrant, welcoming, and safe town with a thriving youth and young adult population and active healthy community sporting, arts and cultural programs. Attracting and retaining young adults is seen as a focus area and encouraging greater engagement of the younger demographic in local activities.

Members of the community recognise the district is well placed to grow and provide enhanced tourism services and infrastructure, providing it can leverage a range of opportunities and overcome key constraints.

With an increase in interest from tourists to visit and travel through the area, development of services and infrastructure to cater for this is necessary. Given the established mining community in the area and potential for growth, encouraging this sector to continue to expand their involvement is viewed as advantageous.

With the geographical isolation of the district, access is a critical issue. The frequency and cost of transport has a significant impact on residents who rely on access to regional services.

Developing and maintaining an adequate standard of services to meet the needs of the local community along with adequate social infrastructure is noted as a high priority, as these are essential to sustain and grow the district. However, there is recognition many core services are the responsibility of the State and Federal Governments. The community wants the Shire to continue to advocate for better services and infrastructure, on their behalf.

Opportunities to improve the built environment exist, increasing amenities and accommodation for more small businesses.

By continuing to strive to be forward thinking, and having strong representation providing good leadership, the Shire will proactively communicate and acknowledge local feedback to ensure the services delivered are representative of the community's needs.

In addition to focusing on continually improving the quality of service, the Shire will work to leverage partnerships and have greater collaboration, including regional collaboration. Efforts will be maximized to advocate and lobby for funding, resources and better services and attract investment.

Strategic Direction and Service Delivery

Discover the outback spirit

The history of the Shire of Laverton is one of exploration, determination, courage and resourcefulness. This history is not only reflected in the strength and character of individuals that call the Shire home but also in the resilience and durability of its floral emblem, the Sturt Desert Pea. The Shire of Laverton truly is where you'll discover the outback spirit.

Strategic Objectives

- **Social:** Proud, spirited, harmonious and connected community
- **Economic:** Prosperous local economy attracting businesses, opportunities and people
- **Environment:** Welcoming and safe natural and built environment; and
- **Leadership:** Responsible financial management and governance, leading an empowered community

Service Delivery

The Shire of Laverton delivers services to its community in line with its vision, values and the four key strategic objectives set out above. Each of the four objectives has several outcomes the Shire seeks to achieve over the 10+ years of the Strategic Community Plan.

Strategies and detailed actions to achieve these outcomes have been developed as part of the Corporate Business Planning process and are detailed on the following pages.

The prioritisation of the actions is reflected by the following symbols, indicating when the action is planned to be undertaken.

Ongoing	
Short - Medium Term 2022 - 2025	
Longer Term 2026 onwards	

As the Shire strives to achieve these outcomes, the community will be kept informed of the progress by means of the Annual Report.

This Plan for the Future was developed with an understanding of the Shire's current resource capacity, including financial, workforce and asset resources.

There are a number of projects forecast to be undertaken during the life of the Corporate Business Plan, which result in additional capital expenditure. The projects include new, expansion, upgrade and renewal of assets and are detailed in the forecast capital expenditure in the Shire's Long Term Financial Plan.

A number of the projects listed in the LTFP are reliant on external contributions, should these not be received the project may be deferred until adequate funding is available.

Future resource capacity is not currently known and is partially dependent on other levels of government. The expected future resource capacity and trend was considered in the development of this Plan for the Future.

Strategic Risk Management

It is important to consider the external and internal context in which the Shire of Laverton operates, relative to risk, in order to understand the environment in which the Shire seeks to achieve its strategic objectives.

External Factors

- Increasing community expectations in relation to service levels and delivery
- Demand for resourcing due to potential expansion in service delivery
- Rapid changes in information technology changing the service delivery environment
- Increased compliance requirements due to Government Policy and Legislation
- Cost shifting by Federal and State Governments
- Reducing external funding for infrastructure and operations
- Changes in mining and pastoral practices and the associated social impacts
- Climate change and subsequent response
- COVID-19 Pandemic

Internal Factors

- The objectives and strategies contained in the Council's current Strategic Community Plan
- The timing and actions contained in the Council's Corporate Business Plan
- Organisational size, structure, activities and location
- Human resourcing levels and staff retention
- The financial capacity of the Shire
- Allocation of resources to achieve strategic outcomes
- Maintenance of corporate records
